### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 5, 9 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Schiff (US Patent 5,489,054).

Regarding claim 1, Schiff discloses a vehicle instrument panel, comprising: a storage drawer (8) slidably mounted to the instrument panel (10) and movable within a cavity (Fig. 4) of the instrument panel (10) between closed (Fig. 1) and open positions (Fig. 2 and 3), wherein the drawer comprises a floor, a front wall, a rear wall opposite the front wall, and side walls that extend between the front and rear walls in spaced-apart relationship to define a storage compartment for receiving items therein (Fig. 2 and 3); and a tray (28) slidably secured to the storage drawer (8,10) and movable between a hidden position (Fig. 2 and 4) within the instrument panel cavity and an exposed position (Fig. 3) when the storage drawer is in an open position, wherein the tray (26,28) comprises one or more receptacles (39) for receiving items therein.

Regarding claim 5, Schiff discloses the instrument panel of Claim 1, wherein the tray is configured to be selectively attached to the storage drawer such that movement of the storage drawer to a fully open position (Fig. 3) causes the tray (26,28) to be moved to its exposed position.

Art Unit: 3612

Regarding claim 9, Schiff discloses the instrument panel of Claim 1, wherein the one or more receptacles (39) are cup holders (Fig. 3).

Regarding claim 10, Schiff discloses the instrument panel of Claim 1, wherein the storage drawer front wall (12) is substantially flush with a front portion of the instrument panel (10) when the storage drawer is in the closed position (Fig. 1).

### *Claim Rejections - 35 USC § 103*

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

5. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Schiff.

Schiff discloses the instrument panel of Claim 1.

Schiff does not disclose that the front wall includes a handle.

Art Unit: 3612

It would have been obvious to one of ordinary skill in the art at the time of the invention to include a handle on the front surface and to allow the drawer to be operated by a user grasping the handle as it would merely involve the alternate utilization of an equivalent opening/closing means to achieve the same exact function.

*Allowable Subject Matter*

6. Claims 14-28 are allowed.
7. Claims 2-4, 6, 7 and 11-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

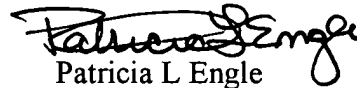

*Conclusion*

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art discloses other drawers with trays.
9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia L Engle whose telephone number is (703) 306-5777. The examiner can normally be reached on Monday - Friday from 8:00 to 4:00.
